PARTY LIKE IT'S

1891

When the building opened in 1891, it featured a rooftop beer garden – and today it still features a spectacular rooftop patio with great views, games, and restrooms, exclusively for tenants. Other in-demand amenities include a new fitness center with showers & lockers and a bike storage facility.

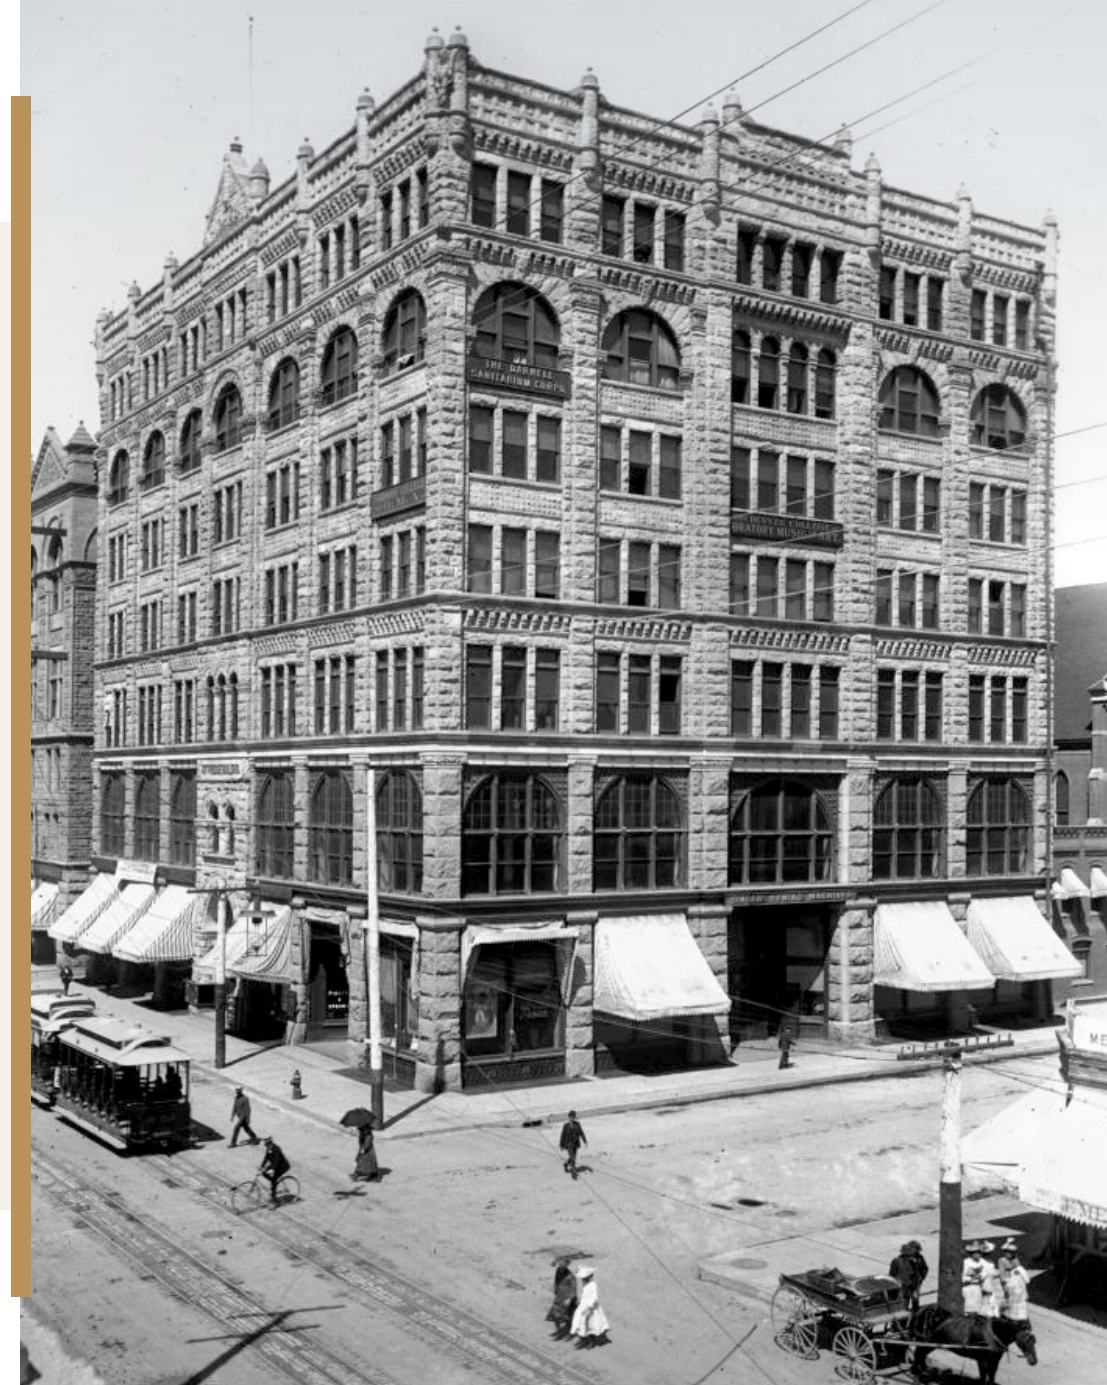

And, thanks to our tenant-focused service, you'll feel like you have your own concierge. The Kittredge Building is locally owned and managed and features personal touches such as 24-hour door staff for added convenience and security.

Human history — in essence — is the history of ideas.

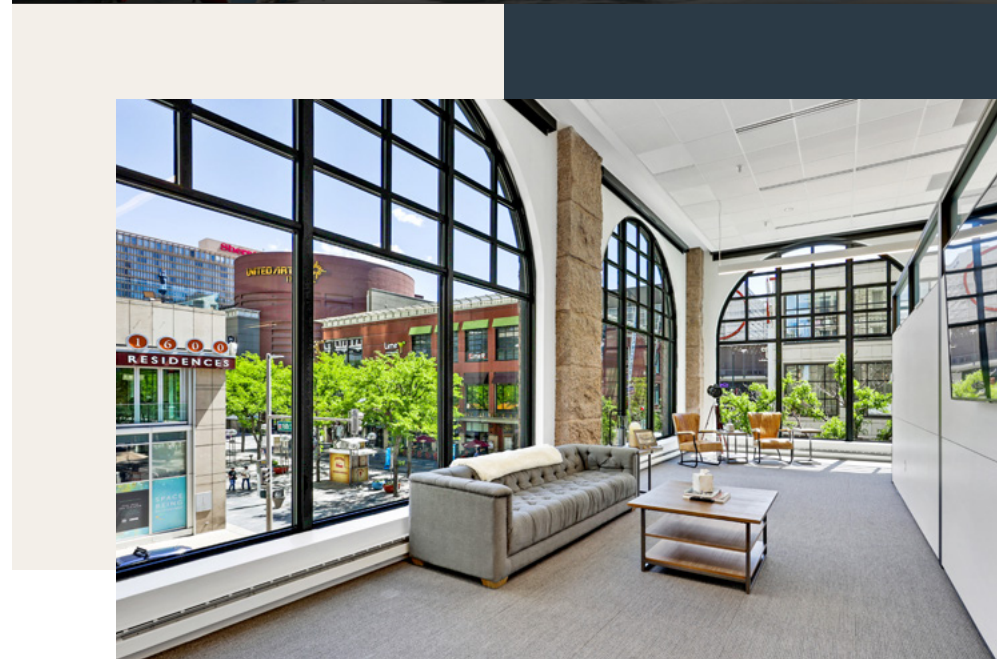

—H.G. Wells

Built during a tremendous building boom in Denver, the Kittredge Building was one of the first west of the Mississippi River to have an elevator and clay tile fireproofing. The ornate exterior designs and gargoyles were carved from granite and rhyolite quarried from Colorado, and the original brass mail-drop box was salvaged and built into the new woodwork when the building was renovated. These beautiful details and more can be seen today throughout many of the suites.

This is a place for creative people
and ideas to flourish.

Perfect for collaborative work,
the Kittredge Building is historic
yet has a modern feel comparable
to new buildings today.
